of Equatter Sovereignty in the South, ht out some of Ohio's gallant sons who spose the Kanses Nebraska swindle from good authority, and now charge, that Wil-from good authority, and now charge, that Wil-liam Medill, the present Sag Nicht leader and candidate for thovernor of Ohio, during the pen-dency of this infamous outrage upon freedom and the ascred compact between the States of this Union, the "Missouri Compromise," made it his business to visit Washington, and there sen of the North. We have urge personally and privately upon every Dem-ocratic delegate from Ohio, the great importance of his vote and influence for this most hellish outrage upon every sacred compact that should connect and bind this people together as a na-tion, for the reason that it would become the "chief corner stone" in the cardinal princ that should bind together the tottering fabric of the present Administration! We make this charge from the authority of one of the Demo-cratic Delegates from our State, who had the manliness and honesty to record his vote against this unholy swindle.
We further charge, and can prove that during

this same visit, one of the refractory Ohio Dele-gates was brought into direct contact with Pres-ident Pierce and Governor Medill, when both these worthies threatened the vengeance of the Democratic party of Ohio upon his head if he dared to rote against this damning blight upon freedom !!

Such, Americans, Democrats, is the man whom the upprincipled leaders of the Sag Nicht Treasury Eating Gang in Ohio would have you vote for the office of Governor of the third State in the Union!

We find the above charges in the Lancaster Gazette, a paper published at the residence of Governor Medill. It is edited by responsible persons. The statements are tangible, and the Governor can at once admit or deny them. He will probably do neither. He has not denied that when at the National Convention that nominated Pierce, he voted against the Ohio resolutions against Slavery, and also voted in favor of the finality pro-Slavery resolutions of that Convention. That he acted the part here charged we have no doubt from what is know as the character of the man. Yet the candidate, who is guilty of such conduct, has the temerity to ask ahti-Slavery men of the Northwest and all over the State to vote for him for Governor, on the ground that he was opposed to the repeal of the Compromise and is in favor of free soil. It may be well for these voters to thoroughly understand their man before they throw away their vote by assisting to replace him in the Gover-nor's chair.—State Journal.

The nomination of Passmo e Williamson for Canal Commissioner by the Republicans of Pennsylvania affords the freemen of that State an admirable opportunity to express their opinions of the outrage on their own dearest rights, of which he is the immediate victim. Passmore Williamson is now in prison for the crimes of loving Liberty and speaking the truth. He told Jane Johnson that she and her children were legally free, having been voluntarily brought into Pennsylvania by their master; and he made answer to a habeas corpus before Judge Kane that he had no control over the said ex-slaves, and did not know where they were. All this was the simple naked truth, and for telling it when required he is arbitrary imprisoned by Judge Kane,imprisoned without indictment or trial, and for an unlimited period. There lives no Pennsylvanian whose personal safety this tyrrany does not endanger, provided he be one who may possibly do a generous or manly act. Now, we know not to what party Mr. Williamson belongs, nor do we care to know. It suffices us that he is the immeelection as Canal Commissioner will be a salutary rebuke of that wrong and humiliation to its author. We entreat, then, every humane Pennsylvanian to work and vote for Mr. Williamson's election, no matter how many or what rival candidates may be in the field. He cannot be a man of generous instincts who, in view of the facts, will allow his name to be used as a candidate against Passmore Williamson.

A THOUGHTLESS MOTHER

A poor, wretched female, religiously educated, but afterward abandoned to sin, misery, and want, was struck with horror at hearing her own child repeat, as soon as she could well speak, some of the profane language which she had learned of herself. Trembling at the thought that she was not only going to hell herself, but leading her child thither, he instantly resolved that with the first sixpence she could procure, she would purchase Dr. Watt's Divine Songs; of which she had some recollection, to teach her infant daughter. She did so, and on opening the book, hereye caught the following striking verse:

"Just as the tree cut down that fell, To north or southward, there it lies: So man departs to heaven or hell, Fix'd in the state wherein he lies."

She read on; the event was blessed to her conversion; and she lived and died a consistent professor of religion.

A few nights back a small party of ladies and gentlemen were laughing over the supposed awkwardness attending a declaration of love, and a gentleman remarked, that if he ever offered himself he would do it a collected man-

" For instance," he continued, addressing himself to a lady present, "I would say Miss S., I have been two years looking for a wife I am in the receipt of about a thousand dollars a years from my business, which is daily on the nerease. Of all the ladies of my acquaintance, I admire you the most; indeed I love you and would gladly make you my wife."

"You flatter me by your preference," good humoredly replied Miss S., to the surprise of all present; " I refer you to my father." "Bravo?" exclaimed the gentlemen.

"Well, I declare," exclaimed the ladies. The lady and gentleman, good reader, are to

Mansfield, Jan. 19 1855 DR. HALSEY'S FOREST WINE.

The discovery of the Forest Wine is the greatest blessing of the age. Put up in Quart Bottles one of which goes farther to the cure of Disease, than ten bottles of any parsaparilla in use, and will cure without any weakening effect. The method by which all sursupprillas, and similar medicines are prepared, is by boiling the roots or plants to obtain the extracts. Their medicinal virtues evaporated and lost. P is not to be wondered at them, that 10 or 20 b titles of Sarsaparilla are taken without benefit. Not so with the Forest Wine By the invention of a wonderful chemical apperators, a perfect wine is produced without heating, retaining at the same time the primitive heating properties of the rare medicinal plants of which it is composed thus ren lering it the most efficient medicine the wild ever produced, at the same time the mort agreeable.

TESTIMONY.—This is to certify that I have used Dr. Halsey's Forest Wine in my lambly with the most entire success. My wife was afflicted with Neuralia, affections of the spine and kidneys, and general Debirty. She regained her health by the use of the Forest Wine. From my own knowledge of this medicine, I recommend it for the good of others who may be suffering from reminier complaints. It is the best medicine with xhich I am acquainted, and the afflicted may rely upon its virtues.
